HQG Attendee & Brewery	Matt Gallagher Half Acre
	Erik Ogershok WarPigs USA
	Chris Boggess 3 Floyds

Operations Description:

A hop farm in central Indiana that grows and processes their own hops. They also bring in imported hops and sell to customers with Prohops

Areas of Concern:

No permanent bathrooms on-site, they are building them next year. Have portable bathrooms and hand washing stations

Improvements since last HQG visit (if applicable):

N/A

Recommendations:

Need permanent bathrooms as stated above

Additional Comments:

<p>What hop varieties are grown? Acreage?</p> <ul style="list-style-type: none">• 69 acres, Cashmere, bitter gold, Vista, Chinook, cascade, crystal, Copper, Comet and Zeus(replacing with fiber hemp)
<p>Does Grower plan any major upgrades in the near future?</p> <ul style="list-style-type: none">• No major upgrades
<p>Does Grower operate multiple facilities? If yes, how many? Facility names and locations (grower numbers)?</p> <ul style="list-style-type: none">• NO
<p>Does Grower custom pick for anyone else? If yes, who?</p> <ul style="list-style-type: none">• Yes, Honey Creek Hops, Tiger Claw and Hanley Hops
<p>What certifications does the grower possess, if any?</p> <ul style="list-style-type: none">• Good Bines, Foundation of Food Safety
<p>Additional Comments about the operation?</p> <ul style="list-style-type: none">• Use biodegradable corn twine, replacing coconut husk twine• Natural Gas powered Kiln• LED Lights everywhere• Some type of automated string tying coming soon• Paved area in front of picker for bine unloading• Using clover as a cover crop• Apply Sulpher• Magnets on conveyance into the green hop box post picker and on the exit of the conditioning box• Grow 20 acres of Hemp for fiber, use their kiln for drying the hemp• No permanent bathrooms on-site, they are building them next year. Have portable bathrooms and hand washing stations• Small Scale propagating program• Chemicals held in outbuilding• Target 10% moisture in drying operation• All in all a pro operation.
