Dustin Helsel – Founders

Chris Boggess – 3 Floyds

Scott Dorsch – Odell Brewing

Jon Lee – Wasatch Brewing

Derek Vermeer – TV Hops

Alec Mull - Founders

Tim Matthews – Oskar Blues

Matt Gallagher – Half Acre

Operations Description: TV hops has three Wolf 1000's making them the largest Wolf pickers in the world. It is a new facility and was very clean. Some adjustments were made when they fired up the system and a new trash system was installed to operate effectively. The newly installed Wolf dryers have the ability to add water back if desired. The facility also had some cold storage to store quality hops in.

Areas of Concern: Overall TV Hops is a new facility that was in excellent condition. The facility was food safe and will produce clean hops.

Recommendations: Global GAP is to be pursued in 2019 which is a great addition to a clean, new facility.
