

***Our mission: To continuously improve
the sanitation and quality of hops
used in the brewing and cellaring of great beers.***

Date	19 August, 2015
Location	Wyckoff Farms, Washington (Wolf Facility)
Purpose	Pre-Harvest Quality Visit

Attendees:	
Dave Wyckoff	Kirby Redman
Chuck Wyckoff	Lucas ??
Bob Mondor – John I. Haas	Brent Radke – New Belgium
Paul Dickman – John I. Haas	Joe Palausky - Boulevard
Jeremy Moynier – Stone Brewing	Andrew Ety – Brooklyn
Anders MacCarthy – Sierra NV	Eryn Bottens – Boston Beer

Operations Description

Brand new facility with a giant Wolf picker, a German-style 3-tier drying system and conditioning boxes and bales in European 60 Kg bales.

Processing conditions may be somewhat different from usual American conditions, but need time to evaluate what these should be.

Very impressive facility!

Areas of Concern

None at this time.

Recommendations

Invite Hop Quality Group team next harvest to study & compare new drying system to conventional American system. This may help a little in optimizing parameters and we are anxious to see what such equipment can do.

***The Hop Quality Group thanks you for the privilege of working together
on our commitment to quality hops for great beers.***
